

## Zero at the Bone

His sisters disappearance threatens to tear a boys family apart Cray is the first to smell smoke. Its his 1st week on the job, working alongside his father at the family plant, and hes afraid of making a fool of himself. So he waits on the factory floor, the machines screaming and wood chips flying. But hes finally certain: The roof is on fire, and if the blaze isnt put out, the factory could explode. Cray calls the fire department and races through the building telling the workers to flee. Hes amazed by how calm they are. The fire is extinguished, and life slowly returns to normal. But the true crisis is just around the corner. When Crays sister disappears and the police search reveals no trace of her, he discovers fear affects everyone differently and its not always smart to stay calm.
